Peterhouse Corporate Finance Limited
("Peterhouse" or the "Company")
Major strategic move into fund management

Peterhouse Corporate Finance Limited, the independent stockbroking, corporate advisory and matched bargain investment bank is pleased to announce that it has acquired, subject to regulatory approvals, the entire issued share capital of each of Hume Capital (Guernsey) Limited, and Hume Capital Management Limited (together the "Targets").

The Targets comprise the institutional fund management and investment advisory companies within the Hume Capital Securities plc group of companies. They are multi-asset, multi-disciplinary firms with a focus on equities, fixed income, absolute return strategies and multi-manager products with total assets under management in excess of £90 million.

Peter Greensmith, Chief Executive Officer of Peterhouse commented: "This acquisition continues the rapid recent progression of Peterhouse, following the formation of its strategic partnership with Libank last year. We believe that this is a major step towards our stated strategic goal of delivering a platform for the growth of a significant, true, "one stop shop" for entrepreneurial, emerging smallcap businesses.

The acquisition of these businesses significantly strengthens our core client base and provides us with a robust and stable platform for growth. The established clients and staff of both acquired businesses provide the diversified and recurring revenue streams critical for Peterhouse's ambitious development plans. This major strategic move will enable the Company to build on our current resources for the benefit of all of our clients and stakeholders. The acquisition puts the enlarged group in an exceptional position to take advantage of the continuing outstanding performance of the group's broking and advisory businesses, whilst preserving the integrity and stability of the newly acquired fund management operations."
